

R&D Projects Selected By MoST (2016-17)

S.#	Project Title
1.	<ul style="list-style-type: none">• Development of surgical tools by powder metallurgy technique.
2.	<ul style="list-style-type: none">• Development of alternative and efficient fuel from coal water slurry.
3.	<ul style="list-style-type: none">• Synthesis of nano- filters materials for the purification of drinking water.
4.	<ul style="list-style-type: none">• Biotechnological production of natural additives as alternative to antibiotic growth promoters for poultry industry.
5.	<ul style="list-style-type: none">• Bioprocess improvement for the production of protease enzyme.
6.	<ul style="list-style-type: none">• Development of biodegradable polymer alternative to conventional polymer.
(a)	
(b)	<ul style="list-style-type: none">• Biodegradable Eco-plastic from Bio waste for pharmaceuticals & food packing industry.
(c)	<ul style="list-style-type: none">• Development of biodegradable plastic and their polymer blends for plastic application.
7.	<ul style="list-style-type: none">• Pre preparation of Eco-friendly synthetic resins for the application in Leather, Textile & ink Industries.
