Performance reports or any other type of report that have been finalized.

The PCSIR Annual Report is the Council's official yearly publication, providing a comprehensive account of its performance, activities, achievements, and financial position during the reporting year. It serves as an important source of information for the Government, stakeholders, researchers, industry, and the general public regarding the Council's contributions to scientific research, industrial development, and technology commercialization. The Annual Reports for the years 2023–24 and 2024–25 are currently under publication, while the Annual Report for 2025–26 is under compilation. The last published Annual Report, 2022–23, is available on the PCSIR website (URL: 1736157950_PCSIRAnnualReport2022-23.pdf)
